

CAVALRY SOLUTIONS™
PRESS RELEASE

Title: Cavalry Solutions Introduces “Version 1.0” of the Cavalry Compass™

Publication Date: 1 May 2009

Syracuse, NY. – Cavalry Solutions, Inc. has officially released “Version 1.0” of the Cavalry Compass™ for limited use within the financial services marketplace. Designed with a high degree of flexibility, the Cavalry Compass™ can help organizations of all sizes and complexities realize efficiencies in their assessment processes.

The Cavalry Compass™ is a web-based risk assessment tool which consists of nearly 60 individual “Modules” – each designed to aid its users in the assessment of a regulatory mandate or industry best-practices theme. The individual Modules are arranged into three “Packages”. The Compliance Package assists its users in the assessment of the “Alphabet Soup” of regulation. The Internal Audit Package guides organizations through several themes including Branch Audits, Investments, and Personnel & Payroll reviews. The Information Security Package allows organizations to understand and begin the strengthening steps for securing their logical and physical space. Whether Cavalry Compass™ users need the entire tool, a specific Package, or an assortment of individual Modules, Cavalry Solutions can create a customized product to meet individual organizational needs.

Version 1.0 is knowingly being released without the anticipated full functionality of the Cavalry Compass™ and is viewed as a way for “early adapters” to understand the structure, functionality, and content of this cutting edge assessment solution. Version 1.0 users will find their experience with the Cavalry Compass™ to feel less like a client of Cavalry Solutions and more like a partner. Cavalry Solutions personnel will be assisting each Version 1.0 client with their assessment processes. In turn, Cavalry Solutions will offer each Version 1.0 customer the ability to provide direct feedback to Cavalry Solutions – directly affecting the design and structure of Version 2.0. Once released, the early adapting clients will be given special user rights for forthcoming versions of the Cavalry Compass™.

To learn more about how your organization can become a “Version 1.0” user of the Cavalry Compass™ as well as learning more about Cavalry Solutions itself, its suite of products, and how utilizing them can benefit your organization, please feel free to call (315) 422-7444 to schedule a free web-based demonstration.
